

# Terms of Warranty for Irradiance and Temperature Sensors of Ingenieurbüro Mencke & Tegtmeyer GmbH

**Irradiance Sensor:** Silicon Irradiance Sensor of Si Series (Si-XXX)  
and Accessories (Tamb-Si, Tmodul-Si and Vwind-Si)

**Temperature Sensors:** Module Temperature (Tmodul and Tm-XXX)  
Ambient Temperature (Ta-XXX)

**Manufacturer:** Ingenieurbüro Mencke & Tegtmeyer GmbH  
Schwarzer Weg 43A, 31789 Hameln, Germany

We herewith confirm the warranty for all above mentioned products produced by Ingenieurbüro Mencke & Tegtmeyer GmbH (M&T) for one year from date of invoice from the producer (in case of invoices issued by IMT Solar (USA) the IMT Solar date is valid) with the following limitations\*.

\*Warranty limitations – M&T does not warrant the following:

1. Liability for any form of negligence (including gross negligence to the extent permitted by law) by M&T or by any of M&T's employees, executives or affiliates.
2. Liability for indirect damage, consequential damage and/or loss of profits or unrealized savings or harm caused by lost or altered data.
3. Any liability for damages that results from the use of the goods other than for the ordinary and designated use.
4. Damage due to the un-authorized modifications of the original wiring as delivered.
5. Defects caused by modifications carried out without M&T's written approval.
6. Defects caused by improper use, handling or operation, in particular defects caused by improper installation.
7. Accidents or disasters or any cause beyond the control of M&T, including but not limited to damage from improper shipping or handling, hail, lightning, flooding, fire, etc.
8. Costs for installation, disassembly and reassembly or installation of the sensor to enable shipment for assessment reasons – warranty or not.
9. Return Shipping of the sensor for assessment reasons – warranty or not.
10. Defects or damaged caused by improper use, or harm from lack of equipment inspections or lack of timely calibration, improper handling or operation, in particular defects caused by improper installation or harm from a lack in proper care or cleaning.
11. Only Si-XXX: Damage due to the un-authorized opening of the sensor case.

In addition, M&T reserves the exclusive right to decide, whether a product is covered by the warranty. A sensor found to be damaged or defective under warranty, may be either repaired, or replaced, at the sole discretion of M&T. Should a sensor fail prematurely, the replacement sensor is warranted for the remainder of the original sensor warranty period.
